

**DEPARTMENT OF THE AIR FORCE**  
**AIR FORCE SECURITY ASSISTANCE TRAINING SQUADRON (AETC)**

6 September 2019

MEMORANDUM FOR DISTRIBUTION

FROM: AFSAT/CC

100 H Street East, Suite 5  
JBSA Randolph TX 78150-4418

SUBJECT: Air Force Course Cancellation/Forfeiture Policy for FY20

References: (a) Defense Security Cooperation Agency (DSCA) 5105.38-M, *Security Assistance Management Manual*, C10.15  
(b) AFI 16-105, *Joint Security Cooperation Education and Training (JSCET)*, Paragraphs 6-3. and 6-32.

1. The purpose of this memo is to provide annual supplemental information for FY20 on forfeiture charges for cancelling or rescheduling USAF managed Security Assistance Training in accordance with references a and b.
2. The list of courses identified in the attachment have been identified by the USAF as subject to the 100 percent forfeiture charge.
  - a. Flying Training will be applied a 100 percent forfeiture charge. There will be a 100 percent charge for all confirmed training canceled or rescheduled with less than 180 days notification unless the quota is filled by another student. Additionally, a 100 percent forfeiture charge will be applied to all training that falls within and outside the 180-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum.
  - b. Air Force critical courses will be applied a 100 percent forfeiture charge. There will be a 100 percent charge for all confirmed training canceled or rescheduled with less than 60 days notification unless the quota is filled by another student. Additionally, a 100 percent forfeiture charge will be applied to all training that falls within and outside the 60-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum.
3. In accordance with JSCET, paragraphs 6-3, Forfeiture Charges, the following applies:
  - a. Training contracted/dedicated specifically designed for international customers: Once a dedicated training is confirmed, a forfeiture charge up to 100 percent will apply if the country fails to send a student to the training, unless the quota is filled by another international student. Dedicated training includes courses which rely on contract support and/or courses that are designated for international students only.
  - b. Training contracted for a single international customer: Under USG direct contract, all costs incurred up to the point of contract cancellation shall be paid. This could include total charges or partial charges. Each element of cost will be reviewed and negotiated for a final settlement cost by appropriate USG warranted contracting officer and the contractor. If the contractor cancels or reschedules training, no penalty will be assessed.
  - c. All other training to include Distance Learning Courses: There will be a 50 percent charge for

all confirmed training canceled or rescheduled with less than 60 days notification unless the quota is filled by another student. The charges will be applied to all confirmed training within the 60-day window. Additionally, a 50 percent forfeiture charge will be applied to all training that falls within and outside the 60-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum. MILDEP will specify training that is part of a sequential pipeline by message to Security Cooperation Organization on an annual basis. Similarly, any cancellation or rescheduling of training that was scheduled at the request of the country without the required lead time to cancel/reschedule will incur a 50 percent charge.

d. Procedures: The date the request is received from the country by the Security Cooperation Organization or other duly appointed and recognized U.S. representative will constitute the official notification date. The Security Cooperation Organization must immediately comply with the cancellation procedure established by AFSAT.

e. Forfeiture charges: These charges will not be applied when cancellation is the fault of the USG, such as deletion of classes or rescheduling, nor will it be applied when the cancellation is due to unavoidable circumstances within the country, such as national disasters or airline strikes. Ultimate assessment of the penalty is at the discretion of the AFSAT Commander who maintains waiver authority.

f. The country should be provided training dates at least 90 days before the start date. Forfeiture charges will not be applied if country cancels or declines training and dates that were provided less than 90 days in advance. However, if later training dates were provided at the request of country, the charges will be applied.

g. If a country requests or accepts a class seat for an out-of-cycle (within 90 day window) quota, forfeiture fees will apply.

h. For training under International Military Education and Training (IMET) only: When IMET appropriations do not materialize at the program Country Program Director levels and DSCA directs countries to reduce their program, they are allowed 60 days to make the required adjustments without penalty for course cancellations. The 60-day adjustment period begins with State Department notification of IMET levels. Waiver of penalty charges under this paragraph does not apply to contract-dedicated or sequential training, or to normal program adjustments to accommodate new courses during the same timeframe.

i. Assess charges: The following guidelines apply to assess charges after arrival of the International Military Student (IMS) at the first CONUS or OCONUS training activity.

(1) When the direct-entry IMS fails to achieve the prerequisite English Comprehension Level (ECL) on the CONUS course-entry ECL test resulting in rescheduling or cancellation of training, charges will apply according to JSCET paragraphs 6-3a through 6-3c. When IMS attending English Language Training at Defense Language Institute English Language Center fail to meet the language prerequisite of the follow-on course, the country will be charged for the language training received and for follow-on training according to JSCET paragraphs 6-3a through 6-3c.

(2) When the IMS is recalled by their country for official reasons or the IMS has disciplinary problems, illness, or disability incurred before departing country, forfeiture charges will be assessed for the current course or phase and for the follow-on course according to JSCET paragraphs 6-3a through 6-3c.

(3) When the IMS has an injury or illness incurred during training, or compassionate return, the

country will be assessed forfeiture charges for all contract/dedicated/flying/sequential pipeline training according to JSCET paragraph 6-3a through 6-3c. For all other training courses, assess forfeiture charges for the course started but not completed; do not assess forfeiture charges for the follow-on course.

4. In accordance with JSCET, paragraph 6-32, Forfeiture Charges and Adjustments: To avoid forfeiture charges, training must be canceled at least 60 days prior to the course start date and 180 days for all flying training. Training dates are provided to the Security Cooperation Organization in the Standardized Training List or by message. The training dates are considered acceptable unless the Security Cooperation Organization requests a change.

5. USAF Non-Critical Sequential Pipeline Training Courses: For students already attending training within a scheduled training pipeline, there will be a 50 percent charge for all confirmed training canceled or rescheduled with less than 60 days notification unless the training is reallocated and filled by another student. The cancellation policy will be applied to all confirmed training within and outside the 60-day window if the training is part of a sequential pipeline that a student would attend as part of a complete course curriculum.

6. Courses not identified in this memo will be assessed the standard 50 percent charge if canceled without 60 days notification. This message supersedes previous memorandums.

7. For questions or concerns, please contact Ms. Rachel Cox, AFSAT/MSO, at (210) 652-7724, or via e-mail at [rachel.cox.6@us.af.mil](mailto:rachel.cox.6@us.af.mil).
