

Annex

B

GLOSSARY OF SELECTED TERMS

A

Above-the-line-cost. Charges included within the materiel and/or services line may be referred to as “above-the-line” charges. This term is a holdover from the rescinded Letter of Offer and Acceptance (LOA) form (DD Form 1513) where a line divided the direct charges from the accessorial (surcharge) charges.

Acceptance. The act of an authorized representative of the government by which the government assumes for itself, or as agent of another, ownership of existing and identified supplies tendered, or approves specific services rendered, as partial or complete performance of the contract on the part of the contractor. See also letter of offer and acceptance.

Acceptance date. The date that appears on the acceptance portion of the LOA and indicates the calendar date on which a foreign buyer agrees to accept the items and conditions contained in the FMS offer portion.

Accessorial cost. The cost of packing, crating, and handling (PC&H), and transportation which are incidental to issues, sales, and transfers of materiel and are not included in the standard price or contract cost of materiel. An exception to this is working capital fund (WCF) items.

Accrued costs. The financial value of delivered articles and services and incurred costs reported to DFAS-IN via Delivery Transactions. Incurred costs represent disbursements for which no physical deliveries have yet occurred. Examples are: progress payments to contractors, GFM/GFE provided to contractors, and nonrecurring costs.

Act. The term for legislation once it has passed both houses of Congress and has been signed (enacted) by the president or passed over his veto, thus becoming law.

Actual cost. A cost sustained in fact, on the basis of costs incurred, as distinguished from forecasted or estimated costs.

Adjustment reply code (ARC). A code that identifies the type of action being taken in reply to the FMS customer supply discrepancy report [SDR (ROD)]. ARCs are transmitted to DFAS-IN by an FMS case Implementing Agency in FMS Delivery/Performance Reports.

Administrative contracting officer (ACO). The U.S. government contracting officer who is assigned the responsibility for the administration of U.S. government contracts.

Administrative cost. The value of costs associated with the administration of the FMS program. The prescribed administrative percentage cost for a case appears in the LOA. This percentage is applied against the case. Expenses charged directly to the FMS case (as prescribed by the LOA) are not included.

Administrative lead-time. The time interval between the initiation of procurement action and the letting of a contract or the placing of an order.

Aerospace Maintenance and Regeneration Group (AMARG). A joint service aircraft and aerospace vehicle storage, regeneration, reclamation, and disposal facility located at Davis-Monthan AFB.

Allocation. An authorization by a designated official of a DoD component making funds available within a prescribed amount to an operating agency for the purpose of making funding allotments (i.e., the first subdivision of an apportionment of funds).

Allotment. An authorization granted within and pursuant to an allocation for the purpose of incurring commitments, obligations, and expenditures in the accomplishment of an approved budget. Therefore, an allotment is a subdivision of an appropriation that provides the funding authority for an official to accomplish a specific function or mission.

Amendment. An amendment of an FMS case constitutes a scope change to an existing LOA.

Apportionment. A determination made by the Office of Management and Budget which limits the amount of obligations or expenditures which may be incurred during a specified time period. An apportionment may limit all obligations to be incurred during the specified period or it may limit obligations to be incurred for a specific activity, function, project, or a combination thereof.

Appropriation. A part of an Appropriation Act providing a specified amount of funds to be used for designated purposes. Each appropriation has a finite period of time for incurring obligations.

Appropriations act. Legislation initiated by the House and Senate Appropriations Committees, that provides authority for Federal agencies to incur obligations and to make payments out of the Treasury for specified purposes. An appropriation act is the most common means of providing budget authority. There are thirteen regular appropriation acts for each fiscal year.

Armaments. Weapons with a lethal capability (i.e., missiles, ammunition, etc.).

Armed Services Board of Contract Appeals. A board established to act as the authorized representative of the SECDEF or department Secretaries, in deciding appeals under the provisions of the disputes clause contained in USG contracts.

Arms Export Control Act (AECA). The basic U.S. law providing the authority and general rules for the conduct of foreign military sales and commercial sales of defense articles, defense services, and training. The AECA came into existence with the passage of the Foreign Military Sales Act (FMSA) of 1968. An amendment in the International Security Assistance and Arms Export Control Act of 1976 changed the name of FMSA to the AECA. Published as 22 USC Sec. 2751 et seq.

Attrition. The loss of a resource due to natural causes in the normal course of events, such as a turnover of employees or spoilage and obsolescence of material.

Attrition [international military training]. The total destruction of a DoD capital asset (e.g., a training aircraft) when a foreign student was in physical control of the asset or as a direct result of negligence, simple or gross.

Audit. The systematic examination of records and documents to determine:

- a. The adequacy and effectiveness of budgeting, accounting, financial, and related policies and procedures
- b. Compliance with applicable statutes, regulations, policies, and prescribed procedures
- c. The reliability, accuracy, and completeness of financial and administrative records and reports
- d. The extent to which funds and other resources are properly protected and effectively used

Auditor [procurement]. A term used to represent the cognizant audit office designated by the Defense Contract Audit Agency (DCAA) or military service audit activities for conducting audit reviews of the contractor's accounting system policies and procedures for compliance with the criteria.

Authorization act. Basic, substantive, legislation that establishes or continues the legal operation of a federal program or agency, either indefinitely or for a specific period of time, or which sanctions a particular type of obligation or expenditure.

B

Back order (BO). The quantity of an item requisitioned by ordering activities that is not immediately available for issue but is recorded as a stock commitment for future issue.

Bandaria. The imaginary country used by DISCS when making an example security assistance situation. This country is not located in any real region of the world nor is it modeled after any real country. For security assistance purposes, Bandaria's country code is BN.

Base year (BY). A reference period that determines a fixed price level for comparison in economic escalation calculations and cost estimates. The price level index for the base year is 1.000.

Below-the-line-costs. Accessorials and/or surcharges that are not included within a line item value may be referred to as "below-the-line" charges (e.g., transportation surcharge and packing, crating, and handling (PC&H)). This term is a holdover from the rescinded LOA form (DD Form 1513) where a line divided the direct charges from the accessorial (surcharge) charges.

Bill. A legislative proposal originating in either the House or Senate, which, if passed in identical form by both houses and signed by the president, becomes an enacted law. Bills are designated by “HR” in the House of Representatives or “S” in the Senate, according to the house in which they originate, plus a number assigned in the order in which they are introduced during the two-year period of a Congressional term. Appropriations bills always originate in the House.

Bill (or billing) code. This is a DFAS-IN country assigned code that divides FMS customer country billings into management levels lower than a U.S. Implementing Agency or in-country service. This code often correlates to an FMS customer paying office. It appears in Block 3 of the DD Form 645. Basic alpha codes are derived from the LOA. The FMS customer should ensure that the proper bill code is indicated upon acceptance of an LOA.

Billing statement. The DD Form 645 Billing Statement represents the official claim for payment by the U.S. government referred to in Letters of Offer and Acceptance. It also furnishes an accounting to the FMS purchaser for all costs incurred on his behalf under each agreement.

Blanket order case. An agreement between a foreign customer and the U.S. government for a specific category of items or services (including training) with no definitive listing of items or quantities. The case specifies a dollar ceiling against which orders may be placed.

Budget authority. The authority Congress gives to government agencies, permitting them to enter into obligations that will result in immediate or future outlays (expenditures). Such budget authority does not include the authority to ensure the repayment of loans held by another person or government.

Budget year. The fiscal year following the current fiscal year, and for which the new budget estimate is prepared.

C

Canceled case. An FMS case which was not accepted or funded within prescribed time limitations, or was accepted and subsequently canceled by the requesting country or the U.S. government. In the latter case, the U.S. government or purchaser electing to cancel all (or part) of a case prior to the delivery of defense articles or the performance of services shall be responsible for all (or associated) termination costs.

Capability. Refers to a partner nation’s ability to execute a given task.

Capacity. Refers to a partner nation’s ability to self-sustain and self-replicate a given capability.

Carrier. A military or commercial ship, aircraft, barge, train or truck, or a commercial transport company that moves material from one location to another.

Case. An FMS contractual sales agreement between the U.S. and an eligible foreign country or international organization documented by a DD Form 1513 or an LOA. An FMS case identifier is assigned for the purpose of identification, accounting, and data processing for each offer.

Case description. A short title specifically prepared for each FMS case by the implementing agency.

Case designator. A unique designator assigned by the implementing agency to each FMS case. The designator originates with the offer of a sale, identifies the case through all subsequent transactions, and is generally a three-letter designation, comprising the last element of the Case Identifier.

Case identifier. A unique six-digit identifier assigned to an FMS case for the purpose of identification, accounting, and data processing of each LOA. The case identifier consists of the two-letter country code, a one-letter designator for the implementing agency, and a three-letter case designator.

Case modification. Modification of a case documented by an LOA modification, which constitutes an administrative or price change to an existing LOA, without revising the scope of the case.

Cash prior to delivery [FMS]. A term of sale in which the U.S. government collects cash in advance of the delivery of defense articles and/or the performance of defense services from DoD resources.

Cash with acceptance [FMS]. A term of sale in which U.S. dollar currency, check, or other negotiable instrument is submitted by the customer concurrent with acceptance of an FMS sales offer for the full amount shown as the estimated total cost on the LOA.

Closed case. An FMS case for which all materiel has been delivered, all services have been performed, all financial transactions, including all collections, have been completed, and the customer has received a final statement of account.

Co-development. A joint development project between the U.S. government and foreign government to satisfy a common requirement.

Collections. Receipts in U.S. dollars, checks, or other negotiable instruments from a purchasing country to pay for defense articles, services, or military training based on accepted FMS cases.

Combating Terrorism Fellowship Program (CTFP). Formerly known as Counterterrorism Fellowship Program, and also currently known as the Regional Defense Combating Terrorism Fellowship Program. It is a DoD security cooperation tool that provides education and training to international security personnel as part of the U.S. global effort to combat terrorism. CTFP is authorized by section 2249C of Title 10, *U.S. Code* which allows DoD to use up to \$20 million per year to pay any costs associated with the attendance of foreign government personnel, including civilians, at selected DoD schools, conferences, centers, and other training programs.

Combined Education and Training Program Plan. Plan developed by SCO in coordination with the host country counterparts that consolidates the host country's training needs for the budget year and the planning year (i.e. Host Country Training Requirements for the next two years). Includes program objectives and justifications.

Commercial sale. A sale of defense articles or defense services made under a Department of State issued license by U.S. industry directly to a foreign buyer, and which is not administered by DoD through FMS procedures. Also referred to as a direct commercial sale.

Commercial-type items. Any items, including those expended or consumed in use, which, in addition to military use, are used and traded in normal civilian enterprise and may be imported/exported through normal international trade channels.

Commitment [financial]. A firm administrative reservation of funds based upon firm procurement directives, orders, requisitions, authorizations to issue travel orders, or requests which authorize the recipient to create obligations without further recourse to the official responsible for certifying the availability of funds. The act of entering into a commitment is usually the first step in the process of spending available funds.

Compatibility. The characteristics or ability of two or more operational items/systems to coexist and function as elements of a larger operational system or operational environment without mutual interference. Applies also to multi-service or multi-national use.

Competent Authority Approval (CAA). An approval from the national agency responsible under a country's national law for the regulation of hazardous materials transportation. For the U.S., the "competent authority" (CA) is the U.S. Department of Transportation.

Competitive proposals. A method for awarding a U.S. government contract on a basis other than low bid, whereby the best and final offer may be obtained after discussions are concluded.

Completed case. An FMS case for which all deliveries and collections have been completed, but for which a final accounting statement (DD Form 645) has not been furnished to the purchaser.

Concurrent resolution. A concurrent resolution must be adopted by both houses, but it is not sent to the president for his signature and therefore does not have the force of law. A concurrent resolution, for example, is used as the vehicle for expressing the sense of Congress on various foreign policy and domestic issues.

Concurrent resolution on the budget. A resolution passed by both Houses of Congress but not requiring the signature of the president, setting forth, reaffirming, or revising specified congressional budget totals for the federal government for a fiscal year.

Concurrent spare parts (CSP). These are spare parts programmed as an initial stockage related to the acquisition of a major item or system. CSPs are normally shipped in advance of the release of the major item or system.

Conference committee. A meeting between representatives of the House and the Senate to reconcile differences when each chamber passes dissimilar version of the same bill. Members of the conference committee are appointed formally by the Speaker of the House and the presiding officer of the Senate from the membership of the respective standing committees having cognizance over the subject legislation.

Congressional amendment. A proposal by a member of Congress to alter the language, provisions, or stipulations in a bill or in another amendment. An Amendment usually is printed, debated, and voted upon in the same manner as a bill.

Congressional Budget Justification for Foreign Operations. The document presented annually by the Executive Branch to Congress describing the proposed annual Military Assistance, Foreign Military Sales programs, and related security assistance programs along with other foreign assistance programs for the next fiscal year (i.e., the budget year) for which Congressional authorizations and appropriations are requested. The document is jointly produced by DoD (DSCA) and DoS (PM) and serves as a supporting document and justification for the president's annual budget request for foreign assistance. In the past, referred to as the Congressional Presentation Document (CPD).

Congressional committee. A division of the House or Senate that prepares legislation for action by the parent chamber or makes investigations as directed by the parent chamber. Most standing committees are divided into subcommittees, which study specific types of legislation, hold hearings, and report bills, with or without amendments, to a full committee. Only a full committee can report legislation to the House or Senate.

Consignee. The person or organization to whom a shipment is to be delivered, whether by land, sea or air.

Constant year dollars. A method of relating dollar values for various years by removing the annual effects of inflation and showing all dollars at the value they would have had in a selected base year. See also current year dollars.

Constructive delivery [FMS]. Completion of delivery of materiel to a carrier for transportation to a consignee, or delivery to a U.S. post office for shipment to a consignee. Delivery is evidenced by completed shipping documents or listings of delivery at the U.S. post office. The delivery of materiel to the customer or the customer's designated freight forwarder at a point of production, testing, or storage at dockside, at staging areas, or at airports constitutes actual delivery. Also referred to as physical delivery.

Consumption rate. The average quantity of an item consumed or expended during a given time interval, expressed in quantities by the most appropriate unit of measurement.

Continental United States (CONUS). United States territory, including the adjacent territorial waters, located within the North American Continent between Canada and Mexico. Does not include Hawaii or Alaska.

Continuing resolution (CR). Appropriations legislation enacted by Congress to provide temporary budget authority for Federal agencies to keep them in operation when their regular appropriations bill has not been enacted by the start of the fiscal year.

Continuing resolution authority (CRA). The authority to obligate funds against the FMFP, IMET, ESF, or other related security assistance appropriation for the new fiscal year under a CR granted by Congress in a Joint Resolution making temporary appropriations prior to passage of the regular appropriations act, or in lieu of such an act. Normally, however, the CRA is for a designated period less than a fiscal year, and such a CRA does not usually allow funding for the start of any new programs.

Contract. An agreement between two or more persons who are legally capable of making a binding agreement, which involves: a promise (or set of promises); a consideration (i.e., something of value promised or given); a reasonable amount of understanding between the persons as to what the agreement means; and a legal means for resolving any breach of the agreement.

Contract administration. All the activities associated with the performance of a contract, from pre-award to closeout.

Contract administration services. All those actions accomplished in or near a contractor's plant for the benefit of the U.S. government which are necessary to the performance of a contract or in support of the buying offices, system/project managers, and other organizations, including quality assurance, engineering support, production surveillance, pre-award surveys, mobilization planning, contract administration, property administration, industrial security, and safety.

Contract administration services (CAS) charge. A surcharge applied to all FMS purchases from procurement to cover the cost of contract administration, quality assurance and inspection, and contract audit. The surcharge percentage depends upon any contract administrative reciprocal agreements with a particular purchasing country.

Contract authority. Budget authority contained in an authorization bill that permits an agency of the federal government to enter into contracts or other obligations for future payments from funds not yet appropriated by Congress. The assumption is that the necessary funds will be made available for payment in a subsequent appropriations act.

Contract award. This occurs when a contracting officer has signed and distributed a contract to a contractor.

Contract field services (CFS). These are services performed for the USG by commercial or industrial companies. These services provide instruction and training on the installation, operation, and maintenance of DoD weapons, equipment, and systems.

Contract requirements. In addition to specified performance requirements, contract requirements include those defined in the statement of work; specifications, standards, and related documents; the contract data requirements list; management systems; and contract terms and conditions.

Contract termination. Cessation or cancellation, in whole or in part, of work under a prime contract, or a subcontract there under, for the convenience of, or at the option of, the government, or a foreign purchaser (FMS), or due to failure of the contractor to perform in accordance with the terms of the contract.

Contracting officer (CO). A person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the CO acting within the limits of their authority as delegated by the CO.

Conventional arms transfers (CAT). The transfer of non-nuclear weapons, aircraft, equipment, and military services from supplier states to recipient states. The USG views arms transfers as a useful foreign policy instrument to strengthen collective defense arrangements, maintain regional military balances, secure U.S. bases, and compensate for the withdrawal of troops. U.S. arms may be transferred by grants, leases, loans, direct commercial sales, or government-to-government cash sales under FMS.

Cooperative logistics. The logistics support provided a foreign government/agency through its participation in a United States Department of Defense logistics system, with reimbursement paid to the USG for the support provided [Joint Pub 1-02].

Cooperative logistics supply support arrangements (CLSSA). Military logistics support arrangements designed to provide responsive and continuous supply support at the depot level for U.S.-made military materiel possessed by foreign countries and international organizations. The CLSSA is normally the most effective means for providing common repair parts and secondary item support for equipment of U.S. origin that is in allied and friendly country inventories.

Cooperative research and development. A method by which governments cooperate to make better use of their collective Research and Development resources, to include technical data exchanges and codevelopment of new weapons systems.

Coordinating Authority. A commander or individual assigned responsibility for coordinating specific functions or activities involving forces of two or more military departments, two or more joint force components, or two or more forces of the same service. The commander or individual has the authority to require consultation between the agencies involved, but does not have the authority to compel agreement. In the event that essential agreement cannot be obtained, the matter shall be referred to the next senior in the reporting chain. This authority is given to the Senior Defense Official or the Defense Attaché (SDO/DATT) by DODD 5105.75, Department of Defense Operations at U.S. Embassies, December 21, 2007.

Coproduction. A program implemented by a government-to-government or commercial licensing arrangement which enables a foreign government or firm to acquire the “know-how” to manufacture or assemble, repair, maintain and operate, in whole or in part, a defense item.

Cost contract. A contract that provides for payment to the contractor of allowable costs, to the extent prescribed in the contract, incurred in performance of the contract.

Country Liaison Officer (CLO). An officer or non-commissioned officer (NCO) of a foreign military establishment selected by his or her government and attached to a MILDEP or DoD agency for the primary purpose of helping administer IMS from his or her home country. For administrative purposes, the CLO is considered in a student status. In State Department terms, the CLO is the Community Liaison Officer, similar to an MWR officer in the military.

Country-specific Security Cooperation Section (CSCS). Part of the Theater Campaign Plan (TCP) that serves as the core organizing documents for articulating DoD country-level objectives for the application of security cooperation at the country level, and should inform and be informed by corresponding Integrated Country Strategies (ICS). Each country-specific security cooperation section will identify specific lines of effort that represent the significant security cooperation initiatives planned for the country, and articulate specific, measurable, attainable, relevant, and time-bound objectives in

support of such initiatives.

Country team. Senior members of U.S. government agencies assigned to a U.S. diplomatic mission overseas, and subject to the direction and supervision of the Chief, U.S. Mission (Ambassador). Normally, such members meet regularly (i.e., weekly) to coordinate USG political, economic, and military activities and policies in the host country.

Credit case (FMS). The use of U.S. government appropriated funds from the FMFP account to finance a foreign country's FMS purchases of U.S. defense articles or services. Credit funds may be in the form of repayable loans or non-repayable grants.

Credit guaranty. A guaranty to any individual corporation, partnership, or other judicial entity doing business in the United States (excluding USG agencies other than the Federal Financing Bank) against political and credit risks of nonpayment arising out of their financing of credit sales of defense articles and defense services to eligible countries and international organizations.

Cross-servicing. That function performed by one military service in support of another military service for which reimbursement is required from the service receiving support.

Current fiscal year. The fiscal year in progress but not yet completed; e.g. between and including 1 October and 30 September.

Current year. The fiscal year in progress. See also budget year.

Current-year dollars. Dollar values of a given year that include the effects of inflation or escalation for that year, or which reflect the price levels expected to prevail during the year at issue. Also referred to as escalated dollars or then-year dollars.

D

Defense article. As defined in section 644(d), FAA and section 47(3), AECA, includes any weapon, weapons system, munitions, aircraft, vessel, boat, or other implement of war; any property, installation, commodity, material, equipment, supply, or goods used for the purposes of furnishing military assistance or making military sales; any machinery, facility, tool, material, supply, or other item necessary for the manufacture, production, processing, repair, servicing, storage, construction, transportation, operation, or use of any other defense article or any component or part of any articles listed above, but shall not include merchant vessels, or as defined by the Atomic Energy Act of 1954, as amended (42 U.S. Code 2011), source material, byproduct material, special nuclear material, production facilities, utilization facilities, or atomic weapons or articles involving Restricted Data.

Defense attaché office (DAO). A DoD organization assigned to a U.S. diplomatic mission overseas for the purposes of overt gathering of military information, representing the U.S. Department of Defense in the conduct of military liaison activities, and performing as a component of the U.S. country team. Several DAO's have been designated by the president as being responsible for security assistance functions in a host country.

Defense Contract Management Agency (DCMA). An agency under the direction of the Under Secretary of Defense for Acquisition, Technology and Logistics [USD (AT&L)], which provides unified contract administration services to DoD components and NASA, for all contracts except those specifically exempted.

Defense industrial cooperation. U.S. activities performed in conjunction with selected foreign countries, which are intended to stimulate the development of foreign defense industrial capabilities, particularly in emerging technologies, for the mutual benefit of all participants.

Defense Logistics Agency. A DoD inventory management agency responsible for approximately 95 percent of consumable items and approximately 85 percent of all spare parts in the DoD supply system.

Defense Institute of Security Cooperation Studies (DISCS). The centralized DoD school for the consolidated professional education of personnel involved in security cooperation management. DISCS is located at Wright-Patterson Air Force Base, Ohio, and provides an array of resident and nonresident instruction for both USG and foreign government military and civilian personnel as well as for defense contractor and industry personnel.

Defense Institution Building (DIB). Helping partner nations develop more effective defense institutions, including organizations and processes that can ensure effective oversight, management, and execution of logistics, personnel, budgets, policy, strategy, doctrine for effective development, employment, and sustainment of defense capabilities.

DLA Disposition Services. An organization within DLA that provides redistribution and disposal services for DoD. FMS is one of the many programs qualified to receive DLA Disposition Services property.

DLA Logistics Information Service. An organization within DLA that serves as the U.S. National Codification Bureau (NCB) and also provides cataloging services in support of allied defense ministries.

Defense Security Cooperation Agency (DSCA). The agency that performs administrative management, program planning, and operations functions for U.S. military assistance programs at the DoD level under the policy direction of the Assistant Secretary of Defense (International Security Affairs).

Defense service. As defined in section 644(f), FAA and section 47(4), AECA, the term defense service includes any service, test, inspection, repair, training, publication, technical or other assistance, or defense information used for the purpose of furnishing military assistance or FMS, but does not include military education and training activities or design and construction services under section 29, AECA.

Defense stock. The term defense stock includes defense articles on hand which are available for prompt delivery. It also includes defense articles under contract and on order that would be available for delivery within a reasonable time from the date of order by an eligible foreign government or international organization without increasing outstanding contracts or entering into new contracts.

Defense Transportation System (DTS). The collection of transportation activities and carriers belonging to or under contract to the DoD. The DTS includes commercial and organic aircraft and ships, and commercial small package services under contract to the DoD, as well as the operation of U.S. military air and ocean terminals in and outside of the U.S.

Defined order case. These are FMS cases characterized by orders for specific defense articles and services that are separately identified line items on the LOA.

Definitization. The process of tailoring a standard DoD system to the international partner's operational requirements, by making adjustments to the item configuration, the type and quantity of spare parts, and the logistics support package.

Delivery. Includes constructive or actual delivery of defense articles; also, includes the performance of defense services for the customer or requisitioner, as well as accessorial services, when they are normally recorded in the billing and collection cycle immediately following performance.

Delivery forecasts. Periodic estimates of contract production deliveries used as a measure of the effectiveness of production and supply availability scheduling and as a guide to corrective actions to resolve procurement or production bottlenecks. These forecasts provide estimates of deliveries under obligation against procurement from appropriated or other funds.

Delivery Term Code (DTC). A single character code that represents how far the USG is responsible for arranging transportation of defense articles going to an international customer.

Dependable undertaking [FMS]. An excepted term and condition within the FMS case (or LOA). A firm commitment by a foreign government or international organization to pay the full amount of a contract for new production or for the performance of defense services which will assure the U.S. against any loss on such contract and to make funds available in such amounts and at such times as may be required by the contract, or for any damages and costs that may accrue from the cancellation of such a contract, provided that in the judgment of the DoD there is sufficient likelihood that the foreign government or international organization will have the economic resources to fulfill the commitment.

Depot level maintenance. Maintenance performed on material requiring a major overhaul or a complete rebuilding of parts, assemblies, subassemblies, and end items, including the manufacture of parts, modification, testing, and reclamation as required. Provides more extensive shop facilities and equipment and personnel of higher technical skill than are normally available at the lower levels of maintenance, i.e., organizational and intermediate level maintenance.

Designated government representative (DGR). A person or persons duly authorized by a foreign government to act on behalf of that government to negotiate, commit, sign contractual agreements, and/or accept delivery of materiel.

Diminishing Manufacturing Sources and Material Shortages (DMSMS). The loss or impending loss of manufacturers of items, suppliers of items, or raw materials needed to support and maintain a system.

Direct cite. Citation of the FMS Trust Fund [Account 97-11X8242] as the financing source on documents leaving the DoD system, as well as contracts with commercial firms, the General Services Administration, the Department of Transportation,

etc. The term “direct cite” is not valid if any DoD organization establishes a reimbursable order to a DoD appropriation account, stock fund, or industrial fund.

Direct cost. Any cost that is specifically identified with a particular final cost objective. Such costs are not necessarily limited to items that are incorporated into the end product as labor or material.

Direct offset. A general type of industrial or commercial compensation practice required of a contractor by a purchasing government as a condition for the purchase of defense articles/services. The form of compensation, which generally offsets a specific percentage of the cost of the purchase, is directly associated with the items purchased, such as the production of components in the purchasing country for installation in the purchased end-item.

Disbursements [gross and net]. In budgetary usage, gross disbursements represent the amount of checks issued, cash, or other payments made, less refunds received. Net disbursements represent gross disbursements less income collected and credited to the appropriate fund account, such as amounts received for goods and services provided. See also outlays.

Disclosure authorization. An authorization by an appropriate U.S. military department authority which is required prior to the disclosure of classified information to foreign nationals who are cleared by their governments to have access to classified information.

Domicile to duty transportation. Transportation from one’s domicile/residence to one’s place of duty/employment.

DoD components. These include all of the following: the Office of the Secretary of Defense (OSD); the military departments; the Joint Chiefs of Staff (JCS or Joint Staff); the combatant commands; the Office of the Inspector General, Department of Defense (DODIG); the Defense agencies, to include the Missile Defense Agency (MDA); and DoD field activities.

DoD field studies program. The DoD program that affords an opportunity for the International Military Student (IMS) to become familiar with the United States, the social, cultural, and political institutions of the U.S., and its people and their ways of life. The informational program (IP) further increases the IMSs’ awareness of the U.S. commitment to basic principles of internationally recognized human rights. Formerly the DoD informational program.

DSP-94. A DoS publication, Authority to Export Defense Articles Sold Under the Foreign Military Sales Program, which must be filed with the U.S. Customs along with a copy of the LOA in order for defense articles to be legally exported.

E

Earmarks [appropriations]. Minimum mandatory funding levels for countries/programs established by Congress in annual foreign assistance authorization and appropriations bills. Earmarks provide Congress a means for establishing its priorities in the allocation of U.S. foreign assistance resources.

Economic order quantity (EOQ). The most economical quantity of parts to order at one time to support a defined production rate, considering the applicable procurement and inventory costs.

Economic support fund (ESF). A USG security assistance program through which economic assistance is provided on a grant basis, to selected foreign governments with significant political or military interests for the U.S. The funds may be used to finance imports of commodities, capital, or technical assistance in accordance with the terms of a bilateral agreement.

Eligible recipient [security assistance]. Any friendly foreign country or international organization determined by the president to be eligible to purchase or receive (on a grant basis) U.S. defense articles and defense services, unless otherwise ineligible due to statutory restrictions.

End item (EI). A final combination of end products, component parts, and/or materials which is ready for its intended use, e.g., aircraft, ship, tank, mobile machine shop.

Engineering change proposal (ECP). A proposal to a responsible authority recommending that a change to an original item of equipment be considered, and the design or engineering change be incorporated into the article to modify, add to, delete, or supersede original parts.

English comprehension level (ECL) examination. A test of the overall proficiency of foreign military students in English language listening and reading. A minimum entry level for each DoD course of instruction is set by the military departments (MILDEPs) on the basis of course level difficulty and hazard factors.

Environmental and morale leave. A type of leave granted to DoD personnel stationed in remote locations.

Estimated actual charges. A systematic and documented estimate of actual costs. The procedure is used in the absence of an established cost accounting system and the procedure is sometimes referred to as a cost finding technique.

Excess defense articles (EDA). Defense articles owned by the United States government which are neither procured in anticipation of military assistance or sales requirements, nor procured pursuant to a military assistance or sales order. EDA are items (except construction equipment) that are in excess of the Approved Force Acquisition Objective and Approved Force Retention Stock of all Department of Defense components at the time such articles are dropped from inventory by the supplying agency for delivery to countries or international organizations.

Execution. The operation of carrying out a program as contained in the approved budget. Often referred to as budget execution.

Executive Order. A rule or regulation, issued by the president, a governor, or some other administrative authority, that has the effect of law. Executive orders are used to implement and give administrative effect to provisions of the Constitution, to treaties, and to statutes. They may be used to create or modify the organization or procedures of administrative agencies or may have general applicability as law. Under the Administrative Procedure Act (APA) of 1946, all executive orders must be published in the Federal Register.

Expanded IMET (E-IMET). Training funded under the IMET program to the following four objectives: proper management of defense resources, improving military justice systems in accordance with internationally recognized human rights, understanding the principle of civilian control of the military, and contributing to the cooperation between police and military forces for counternarcotics law enforcement [sec. 541, FAA]. Only courses found in the Expanded IMET Handbook qualify for consideration in the Expanded IMET portion of a country's training program.

Expendable supplies and material. Supplies which are consumed in use, such as ammunition, paint, fuel, cleaning and preserving materials, surgical dressings, drugs, medicines, etc., or which lose their identity, such as spare parts, etc. Sometimes referred to as consumable supplies and material.

Expenditure authority (EA, as used in FMS). A document or authority from DFAS-IN to an FMS case implementing DoD component that allows expenditures against obligations previously recorded against an FMS case. The disbursing activity must ensure that cash is available prior to processing the disbursement.

Expenditures. The actual spending of money as distinguished from the appropriation of funds. Expenditures are made by the executive branch; appropriations are made only by Congress. The two rarely are identical in any fiscal year. In addition to some current budget authority, expenditures may represent prior budget authority made available one, two, or more years earlier. See also disbursements.

Extended training service specialists (ETSS). ETSS are DoD military and civilian personnel technically qualified to provide advice, instruction, and training in the installation, operation, and maintenance of weapons, equipment, and systems. ETSS are attached to an overseas SCO rather than assigned, and they are carried on the Joint Table of Distribution (JTD), but are not provided as an augmentation to the SCO staff. ETSS may be provided for overseas assignments for periods of up to but not exceeding one year, unless specifically approved by DSCA.

EX-number. A classification of explosive hazard assigned by the U.S. Department of Transportation to commercial and military explosives, which determines how the explosive material may be stored and transported to comply with international safety regulations.

F

Fair Share Sustainment Programs (FSSP). U.S. Army programs to provide hardware, software and technical support to international users of the HAWK and CHAPARRAL programs which are obsolete to the U.S. Army.

Familiarization training. Practical experience and job-related training for specific systems, subsystems, functional areas, or other operations that require hands-on experience, to include maintenance training conducted at the depot level. This training does not provide for skill-level upgrading, which is provided under OJT when special procedures are required.

Federal Acquisition Regulation (FAR). The FAR is the primary regulation for use by federal executive agencies for the acquisition of supplies and services with appropriated funds. Besides the FAR, each agency has its supplement to describe its own particular way of doing business. The DoD supplement is called Defense FAR Supplement (DFARS).

Federal budget. The federal government's budget for a particular fiscal year transmitted in January (first Monday after

January 3rd) to the Congress by the president in accordance with the Budget and Accounting Act of 1921. Includes funding requests for all agencies and activities of the executive, legislative, and judicial branches. Also termed president's budget.

Federal Logistics Information System. Central repository for all logistics identification data.

Fences. Explicit limitations (ceilings and floors) established by Congress on the use of funds provided in an appropriations act. See also earmarks.

Field Studies Program (FSP). The FSP shall provide international students and visitors the opportunity to obtain a balanced understanding of the U.S. and to increase their awareness of the basic issues involving internationally recognized human rights.

Fiscal year [FY]. Accounting period beginning 1 October and ending 30 September of the following year. The fiscal year is designated by the calendar year in which it ends. Fiscal Year 1995 begins on 1 October 1994 and ends 30 September 1995.

Fixed costs. Costs that do not vary with the volume of business, such as property taxes, insurance, depreciation, security, and minimum water and utility fees.

Fixed price type contract. A type of contract that generally provides for a firm price or, under appropriate circumstances, may provide for an adjustable price for the supplies or services being procured. Fixed price contracts are of several types, and are so designed as to facilitate proper pricing under varying circumstances.

Follow-on training. Sequential training following an initial course of training.

Force Activity Designator (FAD). An assignment of a Roman numeral designator between I and V to international partner countries, and to U.S. defense organizations, which determines the supply priorities that the requisitioner can use to order materiel from the DoD supply system.

Foreign Assistance Act (FAA) of 1961. The basic law providing the authority and the general rules for the conduct of foreign assistance grant activities/programs by the USG. Published as 22 USC Sec. 2151 et seq.

Foreign exchange. Foreign exchange refers to a system whereby the national currency of one country may be exchanged for the currency of another country, thereby facilitating trade between countries.

Foreign internal defense (FID). Participation by civilian and military agencies of one government in any of the programs conducted by another government to free and protect its society from subversion, lawlessness, and insurgency.

Foreign liaison officer (FLO). An official representative, either military or civilian, of a foreign government or international organization stationed in the United States normally for the purpose of managing or monitoring security assistance programs.

Foreign military sales (FMS). That portion of U.S. security assistance authorized by the AECA, and conducted on the basis of formal contracts or agreements between the United States government and an authorized recipient government or international organization. FMS includes government-to-government sales of defense articles or defense services, from DoD stocks or through new procurements under DoD-managed contracts, regardless of the source of financing.

Foreign military sales (FMS) case. A United States of America Letter of Offer and Acceptance (LOA) or a "United States Department of Defense Offer and Acceptance," which has been accepted by a foreign country.

Foreign service national (FSN). A local hire U.S. embassy employee, usually of the same nationality as the host country, but sometimes a third country national (TCN). The FSN fills a billet with a formal position description and is paid according to a local compensation plan developed by the embassy. FSNs are hired and employed by either State Department directly or any other embassy agency (e.g., SCO) with a validated need and billet. Typical jobs for FSNs within a SCO include budget analyst, SA training manager, administrative assistant, and vehicle driver.

Financial Management Regulation (FMR) [DoD 7000.14-R, volume 15, Security Assistance Policy and Procedures]. A manual published by the Defense Finance and Accounting Service under the authority of DODI 7000.14. It establishes basic financial procedures for security assistance activities involving management, fiscal matters, accounting, pricing, budgeting for reimbursements to DoD appropriations accounts and revolving funds, auditing, international balance of payments, and matters affecting the DoD budget.

Foreign Military Sales Forecast Report. A companion document to the Javits Report, this report provides a two-year

projection by fiscal year (vice one calendar year for Javits) but only addresses potential FMS sales.

Foreign Military Sales Order (FMSO). A term used to describe DD Forms 1513 or LOAs that implement Cooperative Logistics Supply Support Arrangements. Two DD Forms 1513/LOAs are written: a FMSO I and a FMSO II.

Foreign Military Sales Order I (FMSO I). Provides for the pipeline capitalization of a cooperative logistics support arrangement, which consists of stocks on hand and replenishment of stocks on order in which the participating country buys equity in the U.S. supply system for the support of a specific weapons system. Even though stocks are not moved to a foreign country, delivery (equity) does in effect take place when the country pays for the case.

Foreign Military Sales Order II (FMSO II). Provides for the replenishment of withdrawals of consumption-type items (repair parts, primarily) from the DoD supply system to include charges for accessorial costs and a systems service charge.

Freight Forwarder. A commercial import/export company under contract to the FMS customer who arranges transportation of materiel from a point specified in the LOA to the final destination.

Formal training [military]. Training (including special training) in an officially designated course. It is conducted or administered according to an approved program of instruction. This training generally leads to a specific skill in a certain military occupational specialty.

Future years defense program (FYDP). The official program summarizing the Secretary of Defense approved plans and programs for the Department of Defense.

G

General English Training (GET). Defense Language Institute–English Language Center (DLIELC) courses designed to develop the English language capability of IMS so they can attend DoD schools.

Generic code (GC). A three-digit code identified in the Military Articles and Services List (MASL) and in appendix D of the SAMM, which represents the type of materiel or services to be furnished according to a specific budget activity/project account classification.

Government Accountability Office (GAO). An agency of the legislative branch, responsible solely to the Congress, which functions to audit all negotiated government contracts and investigate all matters relating to the receipt, disbursement, and application of public funds.

Government furnished equipment (GFE). Items in the possession of, or acquired by the USG, and delivered to or otherwise made available to a contractor.

Government furnished material (GFM). U.S. government property which may be incorporated into, or attached to an end item to be delivered under a contract or which may be consumed in the performance of a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, small tools, and supplies.

Grant. A form of assistance involving a gift of funds, equipment, and/or services which is furnished by the U.S. government to selected recipient nations on a free, nonrepayable basis.

Grant aid (GA). Military assistance rendered under the authority of the FAA for which the United States receives no dollar reimbursement. Such assistance currently consists of the international military education and training program (IMET), and pre-1990 MAP funding.

Guidance for Employment of the Force. The GEF provides two-year direction to CCMDs for operational planning, force management, security cooperation, and posture planning. The GEF is the method through which OSD translates strategic priorities set in the NSS, NDS, and QDR into implementable direction for operational activities. It consolidates and integrates DoD planning guidance related to operations and other military activities into a single, overarching guidance document.

H

Harmonization. The process and/or results of adjusting differences or inconsistencies to bring significant features into agreement.

Holding account. An account established for each FMS country/international organization for the purpose of recording

and safeguarding unidentified and certain earmarked funds for future use.

Host nation support. Civil and military assistance provided by host nations to allied forces and organizations in peace, transition to war, and wartime.

Human rights. The relationship between individuals (citizens) and governments (states) where the legal system should protect the rights of the individual from abuses by said government. Examples of fundamental human rights include the right to life, liberty, security; freedom from enslavement, torture, and cruel, inhuman, or degrading punishment; freedom from arbitrary arrest, and presumption of innocence until found guilty by a competent and impartial tribunal. Additionally, all citizens should have the right to participate in their governments, either directly or through free elections of their representatives.

I

Immunity from criminal prosecution. Diplomatic agents enjoy complete immunity (protection) from the criminal jurisdiction of the host State and thus cannot be prosecuted (put on trial) absent a waiver no matter how serious the offense.

Implementation date [FMS]. The date when supply action on an FMS case is initiated or directed by an implementing agency.

Implementing agency (IA). The military department or defense agency responsible for the execution of military assistance programs. With respect to FMS, the military department or defense agency assigned responsibility by the Defense Security Cooperation Agency to prepare an LOA and to implement an FMS case. The implementing agency is responsible for the overall management of the actions that will result in delivery of the materials or services set forth in the Letter of Offer and Acceptance that was accepted by a foreign country or international organization.

Impoundment. Any executive action to withhold or delay spending appropriated funds as intended by the Congress. There are two kinds of impoundments: deferrals and rescissions.

In-country training. Training offered within the geographic boundaries of a recipient purchaser country, and conducted by members of DoD, other USG organizations, or contractors.

Indirect cost. Costs which are incurred for common or joint objectives, and which are not as readily subject to treatment as direct costs. See also direct costs.

Indirect offset. A general type of industrial or commercial compensation practice required of a contractor by a purchasing government as a condition for the purchase of defense articles/services. The form of compensation, which generally offsets a specific percentage of the cost of the purchase, is unrelated to the items purchased, and may include contractor purchases of commodities and manufactured goods produced in the purchasing country.

Industrial base. The capability of U.S. industry to respond to the needs of and produce end items for the DoD. Also, that part of the total privately-owned and government-owned industrial production and maintenance capacity located in Canada expected to be available during emergencies to manufacture and repair items required by the U.S. military services.

Initial deposit [FMS]. Money transferred to the credit of the Treasurer of the United States or other authorized officer at the time of acceptance of an LOA as full or partial payment for defense articles, services, or training contracted for by an eligible foreign country.

Initial operational capability (IOC). The first attainment of the capability to employ effectively a weapon, item of equipment, or system of approved specific characteristics, and which is manned or operated by an adequately trained, equipped, and supported military unit or force.

Initial provisioning. The process of determining the range and quantity of items (i.e., spares and repair parts, special tools, test equipment, and support equipment) required to support and maintain an item for an initial period of service. Its phases include the identification of items of supply, the establishment of data for catalog, technical manual, and allowance list preparation, and the preparation of instructions to assure delivery of necessary support items with related end articles.

Initial spares. Spare parts procured for the logistics support of a system during its initial period of operation.

Integrated materiel management. The exercise of total DoD management responsibility for a federal supply group and class, commodity, or item by a single agency. Includes requirements, funding, budgeting, storage, issuing, cataloging,

standardizing, and procurement.

Interchangeability. A condition that exists when two or more items possess such functional and physical characteristics as to be equivalent in performance, fit, and durability, and are capable of being exchanged one for the other without alteration of the items themselves or of adjoining items, except for adjustment.

Interfund billing system (IBS). Under IBS, a selling activity will credit the appropriation or fund which owns the materiel and/or finances the accessorial charges at the time of billing the ordering activity, and will charge the appropriations/funds of the ordering activity. IBS normally encompasses all supply system sales and purchases of materiel, including perishable substances, bulk petroleum, oil, lubricants, and aviation fuel. Reimbursable sales will be billed at the time items are dropped from inventory except that billings for sales under FMS and MAP will be based on constructive delivery [DODI 7420.12].

Internal defense. The full range of measures taken by a government to free and protect its society from subversion, lawlessness, and insurgency.

International armaments cooperation programs (IACP). Programs that promote rationalization, standardization and interoperability (RSI) and comprise one or more specific cooperative projects whose arrangements are defined in a written agreement between DoD and one or more countries.

International cooperative administrative support services (ICASS). The purpose of ICASS is to provide, on a reimbursable basis, needed administrative services to USG offices located overseas. The administrative support services are provided by ICASS personnel of the DoS stationed at overseas U.S. embassies, consulates, etc. Normally, such personnel perform a variety of services including: personnel, budget and fiscal, general services, communications, security and guard, and management services. The specific services required are the basis of an agreement between DoS and the requesting agency. Charges are based on the amount of services received, with each agency, including DoS, paying its share. The ICASS system provides an equitable method of sharing the costs of providing “common type” administrative support to the SCO and other agencies at the post.

International logistics. The planning, negotiating, and implementation of supporting logistics arrangements between nations, their forces and agencies. It includes furnishing logistics support (major end items, materiel, and/or services) to, or receiving logistics support from, one or more friendly foreign governments, international organizations, or military forces, with or without reimbursement.

International Logistics Communication System. A fee-for-service telecommunications system established for international partners to communicate supply requirements directly to the DoD supply system through the Defense Data Network.

International Logistics Control Organization. An organization within each of the military departments that is dedicated to managing logistics support programs and logistics transactions in support of foreign military sales and security cooperation programs.

International military education and training (IMET) program. That component of the U.S. security assistance program which provides training to selected foreign military and defense associated civilian personnel on a grant basis. Training is provided at U.S. military facilities and with U.S. Armed Forces in the U.S. and overseas, and through the use of Mobile Training Teams. Training also may be provided by contract technicians, contractors (including instruction at civilian institutions), or by correspondence courses. The IMET Program is authorized by the FAA.

International military student (IMS). A national of a foreign government, with military or civilian status of that government, who is receiving education or training or is touring USG activities under the sponsorship of the security assistance training program (SATP).

International military student office/manager (IMSO/IMSM). A U.S. military office that is designated to coordinate and monitor the local SA training program and provide required administrative support for international military students in training at that activity. Also responsible for the conduct of the DoD Informational Program.

International narcotics control and law enforcement (INCLE). Counter drug bureau/programs managed by DoS, but can have materiel, services, and training support provided and managed by DoD using SC assets and procedures.

International Traffic in Arms Regulation (ITAR). A document prepared by the Directorate of Defense Trade Control (DDTC), Bureau of Political-Military Affairs, Department of State, providing licensing and regulatory provisions for

the import and export of defense articles, technical data, and services. The ITAR also includes the U.S. Munitions List. Published in the Federal Register as 22 CFR 120-130.

Interoperability. The ability of systems, units, or forces to provide services to and accept services from other systems, units or forces, and to use the services so exchanged to enable them to operate effectively together.

Inventory control point (ICP). The organizational element within a DoD system which is assigned responsibility for materiel management of a group of items including such management functions as the computation of requirements, the initiation of procurement or disposal actions, distribution management, and rebuild direction.

Inviolability of person or premises. Protections enjoyed by “diplomatic agents,” which means: (1) they should not be arrested or detained; (2) they are owed a special measure of respect and protection; (3) and neither their property nor residences may be entered or searched.

Invitational travel order (ITO). A written authorization (DD Form 2285) for international military students to travel to, from, and between U.S. activities for the purpose of training under an approved and funded IMET or FMS program.

Item identification number. A seven-character identifier assigned to each line of training in the MASL. The first character is a letter that identifies the MILDEP offering the training (B Army, P-Navy, D-Air Force). The following six characters are numbers that identify the specific item of training. The identification number is used in all FMS and IMET training programs and implementation documents.

Item manager (IM). An individual within the organization of an inventory control point or other such organization assigned management responsibility for one or more specific items of materiel.

J

Javits report. The President’s estimate to the Congress of potential or proposed arms transfers during a given calendar year.

Joint resolution. A legislative resolution, designated H J Res (House) or S J Res (Senate) which requires the approval of both houses and the signature of the president, just as a bill does, and which has the force of law if approved. There is no practical difference between a bill and a joint resolution. A joint resolution generally is used to deal with a limited matter such as a single appropriation. Congressional rejection of a proposed arms transfer, lease, third country transfer, or a proposed international cooperative project takes the form of a joint resolution of disapproval.

Joint Security Assistance Training (JSAT) Regulation. Obsolete, refer to the JSCET.

Joint Security Cooperation Education and Training Regulation (JSCET). Regulation that prescribes policies, responsibilities, procedures, and administration for the education and training of international military students by the Departments of the Army, Navy and Air Force as authorized by U.S. security assistance legislation. Regulation also is applicable to the Marine Corps and Coast Guard as well.

Joint Strategic Capabilities Plan. The JSCP is the primary vehicle through which the CJCS exercises responsibility for directing the preparation of joint plans. The JSCP provides military strategic and operational guidance to CCDRs, Service Chiefs, Combat Support Agencies, and applicable DoD agencies for preparation of campaign plans and contingency plans based on current military capabilities. It serves as the link between strategic guidance provided in the GEF and the joint operation planning activities and products that accomplish that guidance. In addition to communicating to the CCMDs specific planning guidance necessary for deliberate planning, the JSCP also translates strategic policy end states from the GEF into military campaign and contingency plan guidance for CCDRs and expands guidance to include global defense posture, security cooperation, and other steady-state activities. The JSCP is described in detail in CJCSI 3110.01G, *Joint Strategic Capabilities Plan* (classified).

L

Language training detachment (LTD). A group of personnel from the Defense Language Institute, English Language Center (DLIELC), Lackland Air Force Base, Texas, performing duty in a foreign country or in CONUS on a military installation away from DLIELC. They serve as consultants or instructors in English as a foreign language.

Lease (security assistance). An agreement for the temporary transfer of the right of possession and use of a non-excess defense article or articles to a foreign government or international organization, with the lessee agreeing to reimburse the

USG in U.S. dollars for all costs incurred in leasing such articles, and to maintain, protect, repair, or restore the article(s), subject to and under the authority of section 61, AECA (Title 22 USC 2796).

Letter of offer and acceptance (LOA). U.S. Department of Defense letter by which the U.S. government offers to sell to a foreign government or international organization U.S. defense articles and defense services pursuant to the Arms Export Control Act, as amended. The LOA lists the items and/or services, estimated costs, and the terms and conditions of sale; it also provides for the signature of an appropriate foreign government official to indicate acceptance.

Letter of request (LOR). The term used to identify a request from an eligible FMS participant country for the purchase of U.S. defense articles and services. The request may be in message or letter format.

Licensed production. Licensed production involves agreements made by U.S. commercial firms with international organizations, foreign governments, or foreign commercial firms to produce weapon systems.

Life cycle cost. The total costs to the government of acquisition and ownership of a system over its useful life. It includes the costs of development, acquisition, support, and, where applicable, disposal.

Line item number. A three-digit alpha/numeric code that identifies a detail line item on the LOA. This code is perpetuated on the customer's bill.

Living allowance. An authorized allowance paid to an international military student while in training under the IMET program.

Loan. An agreement for the temporary transfer of the right of possession and use of a defense article or articles not acquired with military assistance funds to a foreign government or international organization, at no rental charge to the transferee, with the transferring U.S. military department being reimbursed from MAP funds, subject to and under authority of section 503, FAA. Also, applies to loans to a NATO or major non-NATO ally of materials, supplies, or equipment for the purpose of carrying out a program of cooperative research, development, testing, or evaluation subject to and under the authority of section 65, AECA.

Locally employed staff. The general term used for Foreign Service nationals, as well as some U.S. citizens, who ordinarily reside in the host country and are thus subject to its labor law. LE staff are employed at a U.S. mission, or at an office of the American Institute in Taiwan by the U.S. Government under the authority of the COM and are normally paid under the local compensation plan.

Logistics. The science of planning and carrying out the movement and maintenance of forces. In its most comprehensive sense, involves those aspects of military operations which deal with:

- a. Design and development, acquisition storage, movement, distribution, maintenance, evacuation, and disposition of materials
- b. Movement, evacuation, and hospitalization of personnel
- c. Acquisition or construction, maintenance, operation, and disposition of facilities
- d. Acquisition or furnishing of services

Long-lead items/long-lead time materials. Those components of a system or piece of equipment for which the times to design and fabricate are the longest, and therefore, to which an early commitment of funds may be desirable in order to meet the earliest possible date of system completion.

M

Maintenance. The upkeep of property, necessitated by wear and tear, which neither adds to the permanent value of the property nor appreciably prolongs its intended life, but keeps it in efficient operating condition. The term "preventive maintenance" involves deterring something from going wrong; the term "corrective maintenance" involves restoring something to its proper condition.

Maintenance concept/plan. A description of maintenance considerations and constraints for system/equipment under development. A preliminary maintenance concept is developed and submitted by the operating command as part of the preliminary system operational concept for each alternative solution candidate; the implementing and supporting commands provide inputs to the concept/plan.

Major defense equipment (MDE). Any item of significant military equipment on the United States Munitions List having a nonrecurring research and development cost of more than \$50 million or a total production cost of more than \$200 million. Also defined in section 47 (6), AECA.

Major line item. A program line for which the requirement is expressed quantitatively as well as in dollars. These lines are identified in the military articles and services list(s) (MASL) by a unit of issue (XX) other than dollars.

Major item material excess (MIMEX) offers. Involves major items of MAP equipment declared excess by the original recipient and which are offered to eligible MAP materiel recipients for application against funded current year and prior year undelivered MAP program balances.

Major non-NATO allies. Designated as Argentina, Australia, Bahrain, Egypt, Israel, Japan, Jordan, Kuwait, Morocco, New Zealand, Pakistan, Philippines, Republic of Korea, Taiwan, and Thailand [Sec. 517, FAA].

Materiel management. Direction and control of those aspects of logistics which deal with materiel, including the functions of identification, cataloging, standardization, requirements determination, procurement, inspection, quality control, packaging, storage, distribution, disposal, maintenance, mobilization planning, industrial readiness planning, and item management classification; encompasses materiel control, inventory control, inventory management, and supply management.

Memorandum of agreement (MOA) or memorandum of understanding (MOU). A written agreement between governments or a government and international organization signed by authorized representatives and signifying an intent to be legally bound.

Military articles and services list (MASL). A catalogue of materiel, services, and training used in the planning and programming of Military Assistance Program (MAP), International Military Education and Training (IMET), and Foreign Military Sales (FMS). Separate MASLs are maintained for IMET and FMS training that provides data on course identification, course availability, price, and duration of training.

Military Assistance Advisory Group (MAAG). A joint service group based overseas which primarily administers United States military assistance planning and programming in a host country. The term MAAG encompasses Joint U.S. Military Advisory Groups, Military Missions, Military Assistance Groups, U.S. Military Groups, and U.S. Military Representatives exercising responsibility within a U.S. Diplomatic Mission for security assistance and other related DoD matters. Defense Attachés are included only when specifically designated as having security assistance functions. See also security assistance organization.

Military assistance program (MAP). That portion of the United States security assistance program authorized by the Foreign Assistance Act of 1961, as amended, which provides defense articles and services to recipients on a nonreimbursable (grant) basis. Funding for MAP was consolidated under the Foreign Military Financing (FMF) Program beginning in fiscal year 1990.

Military Assistance Program Address Directory (MAPAD). The MAPAD provides clear text addresses of country representatives, freight forwarders, and customers-within-country required for releasing FMS and MAP shipments processed in accordance with military standard requisitioning and issuing procedures (MILSTRIP), and addresses required for the forwarding of related documentation.

Military civic action. The use of preponderantly indigenous military forces on projects useful to the local population at all levels in such fields as education, training, public works, agriculture, transportation, communications, health sanitation, and others contributing to economic and social development, which would also serve to improve the standing of the military forces with the population. (U.S. forces may at times advise or engage in military civic action in overseas areas.)

Military Department (MILDEP). One of the departments within the Department of Defense created by the National Security Act of 1947, as amended. The Military Departments are: the Department of the Air Force, the Department of the Army, and the Department of the Navy.

Military Service (MILSVC). A branch of the Armed Forces of the United States, established by act of Congress, in which persons are appointed, enlisted, or inducted for military service, and which operates and is administered within a military or executive department. The Military Services are: the United States Army, the United States Navy, the United States Air Force, the United States Marine Corps, and the United States Coast Guard.

Military standard billing system (MILSBILLS). This system provides data elements, codes, standard mechanized

procedures, and formats for use by DoD components for billing, collecting and related accounting for sales from system stocks, including direct deliveries. The mechanized procedures apply to MAP and FMS as outlined in DODI 7420.12 (regarding Interfund Billing System).

Military standard requisitioning and issue procedures (MILSTRIP). A uniform procedure established by the Department of Defense to govern the requisition and issue of materiel within standardized priorities.

Mobile education team (MET). A team of U.S. DoD personnel on temporary duty in a foreign country for the purpose of educating foreign personnel in resource management. Such teams are normally funded from Expanded IMET Program funds.

Mobile training team (MTT). A team of U.S. DoD personnel on temporary duty in a foreign country for the purpose of training foreign personnel in the operation, maintenance, or other support of weapon systems and support equipment, as well as training for general military operations. MTTs may be funded from either FMS or IMET Programs.

Modification. Modification of a case constitutes and administrative or price change to an existing LOA, without revising the scope of the case.

Munitions List. The U.S. Munitions List is an enumeration of defense articles and defense services and is published in the Department of State's International Traffic in Arms Regulations.

N

National Defense Strategy. The NDS flows from the NSS, informs the NMS, and provides the foundation for building the legislatively mandated quadrennial defense review (QDR), which focuses the DoD's strategies, capabilities, and forces on operations of today and tomorrow. The NDS addresses how the Armed Forces of the United States will fight and win America's wars and describes how DoD will support the objectives outlined in the NSS. It also provides a framework for other DoD strategic guidance, specifically on deliberate planning, force development, and intelligence (JP 5-0).

National Military Strategy. The NMS, derived from the NSS and NDS, prioritizes and focuses the efforts of the Armed Forces of the United States while conveying the CJCS's advice with regard to the security environment and the necessary military actions to protect vital U.S. interests. The NMS defines the national military objectives, how to accomplish these objectives, and addresses the military capabilities required to execute the strategy (JP 5-0).

National Policy and Procedures for the Disclosure of Classified Military Information to Foreign Governments and International Organizations (U) [Short Title: National Disclosure Policy (NDP-1)]. Promulgates national policy and procedures in the form of specific disclosure criteria and limitations, definitions of terms, release arrangements, and other guidance required by U.S. departments and agencies having occasion to release classified U.S. military information to foreign governments and international organizations.

National Security Strategy. The NSS is a comprehensive report required annually by Title 50, U.S.C., section 404a. It is prepared by the executive branch of the government for Congress and outlines the major national security concerns of the U.S. and how the administration plans to address them using all instruments of national power. The document is purposely general in content, and its implementation relies on elaborating guidance provided in supporting documents (JP 5-0).

National stock number. A thirteen-digit stock number consisting of a four-digit federal supply classification and a nine-digit national item identification number.

NATO Codification System (NCS). A supply codification system developed by the U.S. and adopted by NATO and non-NATO partners. The NCS standardizes item identification processes to permit item interchangeability between international partners and contributes to systems interoperability.

Net case value. Total amount of the cost reflected on line 21 of the DD Form 1513 or line 8 of the LOA.

Nonexpendable supplies and materiel. Supplies which are not consumed in use and retain their original identity, such as weapons, machines, tools, and equipment.

Nonrecurring costs (NRC or NC). Those costs funded by an RDT&E appropriation to develop or improve a product or technology either through contract or in-house effort. Also, those one-time costs incurred in support of previous production of a specified model and those costs incurred in support of a total projected production run.

Nonrecurring demands. A one-time requisition from a customer that is not used to compute demand-based requirements.

Nonrepayable credits/loans. Grant funds appropriated by Congress for use in the Foreign Military Financing Program to selected countries for their use in financing FMS acquisitions of defense articles, defense services, and training under the authority of section 23, AECA. Additionally, certain countries may be authorized these grant funds to finance direct commercial sales.

Nonstandard article. For FMS purposes, a nonstandard article is one that the DoD does not manage, either because an applicable end item has been retired or because it was never purchased for DoD components.

Nonstandard service. For FMS purposes a nonstandard service is a service that the DoD does not routinely provide for itself or for purchase.

Notice of Availability (NOA). A written notification that material requiring special handling is ready to be shipped. The NOA is sent by the shipper to the purchaser or freight forwarder for oversized, hazardous, explosive, classified or perishable material, and requires a response from the recipient with delivery instructions.

O

Obligation. A duty to make a future payment of money. The duty is incurred as soon as an order is placed, or a contract is awarded for the delivery of goods and the performance of services. An obligation legally encumbers a specified sum of money which will require an outlay or expenditure in the future.

Obligational authority (OA, as used in FMS). A document or authority passed from DFAS-IN to an implementing DoD component that allows obligations to be incurred against a given FMS case in an amount not to exceed the value specified in the obligational authority.

Observer training (OBT). Special training conducted to permit international military students to observe U.S. military techniques and procedures.

Offer date. The date which appears on the offer portion of an LOA and which indicates the date on which an FMS offer is made to a foreign buyer.

Offset agreement. An agreement, arrangement, or understanding between a U.S. supplier of defense articles or services and a foreign country under which the supplier agrees to purchase or acquire, to promote the purchase or acquisition by other U.S. persons, of goods or services produced, manufactured, grown, or extracted, in whole or in part, in that foreign country in consideration for the purchase by the country of defense articles or services from the supplier [Sec. 39A(d)(1), AECA]. See also direct offset and indirect offset.

On-the-job training (OJT). A training program whereby international military students (IMSs) acquire knowledge and skills through the actual performance of duties under competent supervision in accordance with an approved, planned program.

Operation & maintenance (O&M) costs. Costs associated with equipment, supplies, and services required to train, operate, and maintain forces in a recipient country, including the cost of spare parts other than concurrent spares and initial stockages, ammunition and missiles used in training or replacements for such items expended in training or operations, rebuild and overhaul costs (excluding modernization) of equipment subsequent to initial issue, training and other services that do not constitute investment costs, and administrative costs associated with overall program management and administration.

Oral Proficiency Interview (OPI). English language test that rates English language speaking ability for international military students. Certain courses require an OPI test be taken and a specific OPI score to be met before an IMS can attend the course.

Ordering activity. An activity that originates a requisition or order for procurement, production, or performance of work or service by another activity.

Ordnance. Explosives, chemicals, pyrotechnic and similar stores, e.g., bombs, guns, ammunition, flares, smoke, and napalm.

Orientation tour (OT). A tour arranged for key foreign personnel that may be funded under FMS or IMET to acquaint them with U.S. organizations, equipment, facilities, or methods of operation at various locations.

Outlays. Actual expenditures. Checks issued, interest occurred on the public debt, or other payments. Total budget outlays consist of the sum of the outlays from appropriations and other funds in the budget, less receipts (i.e., refunds and reimbursements).

Outside CONUS. All geographic areas not within the territorial boundaries of the continental United States. OCONUS includes Hawaii and Alaska.

Overseas training. Training provided foreign nationals at training installations outside the U.S.

P

Packing, crating, handling, & transportation (PCH&T). The resources, processes, procedures, design considerations, and methods to ensure that all system, equipment, and support items are preserved, packaged, handled, and transported properly, including: environmental considerations, equipment preservation requirements for short-and-long-term storage, and transportability. One of the principal elements of integrated logistics support (ILS).

Paramilitary forces. Forces or groups which are distinct from the regular armed forces of any country, but resemble them in organization, equipment, training, or mission.

Payment on delivery [FMS]. An FMS term of sale in which the U.S. government issues a bill to the FMS purchaser at the time of delivery of defense articles or the rendering of defense services from DoD resources. This term may only be used pursuant to a written statutory determination by the Director, DSCA, who may find it in the national interest to authorize such payment. Based on presidential action, this term may also be modified to read "Payment 120 Days After Delivery."

Payment schedule. List of dollar amounts and when they are due from the foreign customer. The payment schedule supplements the Letter of Offer and Acceptance (LOA) presented to the customer. After acceptance of the LOA, the payment schedule generally serves as the basis for billing to the customer. Changes in the estimated costs of an FMS case may require changes in the accompanying payment schedule.

Performing activity. An activity which is responsible for performing work or service, including the production of material and/or the procurement of goods and services from other contractors and activities.

Performance-Based Logistics. The DoD strategy of purchasing support in terms of systems readiness and performance outcome, rather than simply acquiring and stocking material on demand. DoD contracts with a manufacturer who is responsible for ensuring optimum system performance by providing complete logistics support to the customer.

Planning, programming, and budgeting system (PPBS). An integrated system for the establishment, maintenance, and revision of the Future Years Defense Program (FYDP) and the DoD budget.

Port of Debarkation (POD). A military or commercial air or ocean port at which materiel is offloaded. Also referred to as the Port of Discharge.

Port of Embarkation (POE). A military or commercial air or ocean port at which a carrier begins the journey to deliver materiel to the consignee. This is also referred to as the Port of Exit.

Price and availability (P&A) data. Prepared by the MILDEPs, DSAA, and other DoD components in response to a foreign government's request for preliminary data for the possible purchase of a defense article or service. P&A data are not considered valid for the preparation of an LOA. Furnishing of this data does not constitute a commitment for the USG to offer for sale the articles and services for which the data are provided.

Procurement lead time. The interval in months between the initiation of procurement action and receipt into the supply system of the production model (excluding prototypes) purchased as the result of such actions; procurement lead time is composed of two elements, production lead time, and administrative lead time.

Procuring contracting officer (PCO). The individual authorized to enter into contracts for supplies and services on behalf of the government by detailed bids or negotiations and who is responsible for overall procurement under such contracts.

Production lead time. The time interval between the placement of a contract and receipt into the supply system of materiel purchased.

Professional military education (PME). Career training designed to provide or enhance leadership and the recipient force's capabilities to conduct military planning, programming, management, budgeting, and force development to the level of sophistication appropriate to that force.

Program management review (PMR). A management level review held by a Systems Program Office or Systems Program Manager for the purpose of determining the status of an assigned system. PMRs are designed as tools to identify problems, if any, and to develop appropriate follow-up actions as required.

Progress payments. Those payments made to contractors or DoD industrial fund activities as work progresses under a contract; payments are made on the basis of cost incurred or percentage of work completed, or of a particular stage of completion accomplished prior to actual delivery and acceptance of contract items.

Provisioning. See initial provisioning.

Q

Quadrennial Defense Review. Existing legislation requires the Secretary of Defense to conduct a QDR and to submit a report on the QDR to Congress every four years. The QDR articulates a national defense strategy consistent with the most recent NSS by defining force structure, modernization plans, and a budget plan allowing the military to successfully execute the full range of missions within that strategy (JP 5-0).

Quality assurance (QA). A planned and systematic pattern of all actions necessary to provide confidence that adequate technical requirements are established, that products and services conform to established technical requirements, and that satisfactory performance is achieved.

R

Ratification. The formal action of the president in giving effect to a treaty that has been approved by the Senate. The treaty then is officially proclaimed and becomes legally enforceable.

Rationalization, standardization and interoperability (RSI). Any action that increases the effectiveness of NATO Forces through more efficient or effective use of defense resources committed to the Alliance.

Reapportionment. A revision of an annual apportionment of funds either upwards or downwards, accomplished within the fiscal year for which the original apportionment applied.

Reappropriation. The congressional carrying over of funds unused in one year to the following year. For example, ESF or IMET funds which at the end of the fiscal year are not reserved or obligated, are customarily made available by the Congress for use in the subsequent fiscal year.

Reciprocal defense procurement. Procurement actions which are implemented under memoranda of understanding/ memoranda of agreement (MOU/MOA) between the U.S. and various participating nations whereby the participants agree to effect complementary acquisitions of defense articles from each other's country.

Recoverable item. An item that is normally not consumed in use and is subject to return for repair or disposal. See also repairable item.

Recoupments. Adjustments or cancellations of outstanding MAP orders in prior year program accounts that generate additional funds for the current year operations.

Reimbursable expenditure. An expenditure made for another agency, fund, appropriation, or for a private individual, firm or corporation, which subsequently will be recovered.

Reimbursements. Amounts received by an activity for the cost of material, work, or services furnished to others, for credit to an appropriation or their fund account.

Reliability. A fundamental characteristic of an item of material expressed as the probability that it will perform its intended function for a specified period of time under stated conditions.

Reorder point. The point at which time a stock replenishment requisition is submitted to maintain the predetermined stock age objective.

Repair and replace [FMS]. Programs by which eligible Cooperative Logistics Supply Support Arrangement (CLSSA) customers return repairable carcasses to the U.S. and receive a serviceable item without awaiting the normal repair cycle time frame.

Repair and return. Programs by which eligible foreign countries return unserviceable repairable items for entry into the

U.S. military department repair cycle. Upon completion of repairs, the same item is returned to the country and the actual cost of the repair is billed to the country.

Reparable item. An item that can be reconditioned or economically repaired for reuse when it becomes unserviceable

Replenishment spare parts. Items and equipment, both repairable and consumable, purchased as spares by inventory control points and which are required to replenish stocks for use in the maintenance, overhaul, and repair of equipment, such as ships, tanks, guns, aircraft, engines, etc.

Reprogramming. The transfer of funds between program elements or line items within an appropriation.

Rescission of budget authority. The permanent cancellation of budget authority prior to the time when the authority officially terminates. The rescission process begins when the president proposes a Rescission to the Congress for fiscal or policy reasons. Unlike the deferral of budget authority, which occurs unless Congress acts to disapprove the deferral, rescission of budget authority occurs only if both Houses of Congress approve the rescission, by simple majority, within forty-five days of continuous session.

Research and development. Those program costs primarily associated with research and development efforts, including the development of a new or improved capability to the point where it is ready for operational use.

Resolution. A “simple” Congressional resolution, designated H. Res (House) or S. Res (Senate), deals with matters entirely within the prerogatives of one house or the other. It requires neither passage by the other chamber nor approval by the president, and it does not have the force of law. Most such resolutions deal with the rules or procedures of one house. They also are used to express the sentiments of a single house, such as condolence to the family of a deceased member, or to comment on foreign policy or executive business. A simple resolution is the vehicle for a “rule” from the House Rules Committee. See also Concurrent Resolution and Joint Resolution.

Retainable Instructional Material (RIM). Unclassified books, pamphlets, maps, charts, or other course material issued to and retained by the international military student and their U.S. classmates. It also includes official Field Studies Program materials.

Revolving fund. A fund established to finance a cycle of operations to which reimbursements and collections are returned for reuse in a manner that will maintain the principal of the fund; e.g., working capital funds and industrial funds.

Rule of Law. A fundamental component of a democratic society where all members of said society—both citizens and rulers—are bound by a set of clearly-defined and universally-accepted laws. In a democracy, this is manifested in an independent judiciary, a free press, and a system of checks and balances on leaders through free elections.

S

Safety level. The quantity of materiel, in addition to the operating level of supply required to be on hand to permit continuous operations.

Security assistance (SA). A group of programs authorized by the Foreign Assistance Act (FAA) of 1961, as amended, and the Arms Export Control Act (AECA) of 1976, as amended, or other related statutes by which the United States provides defense articles, military training, and other defense related services, by grant, loan, cash sale, or lease, in furtherance of national policies and objectives [Joint Pub 1-02, as amended through 14 April 2006]. Table C1.T1, SAMM, provides a listing of twelve major security assistance programs, of which seven are administered by DoD and five are administered by DoS. The seven programs managed by DoD are included in the DoD-defined security cooperation program.

Security Assistance Management Manual (SAMM) [DSCA 5105.38M]. A manual published by the Defense Security Cooperation Agency. It sets forth the responsibilities, policies, and procedures governing the administration of security assistance within the Department of Defense [available online: <http://www.dsca.mil/samm/>].

Security assistance management review (SAMR). A management review led by a security assistance organization, for the purpose of determining the status of one or more specific programs. Such reviews may include the entire range of a purchaser’s security assistance program.

Security assistance network (SAN). An Internet-based network developed for the SA community to provide access to the world wide web, identification of web sites of interest to the SA community, an E-mail system (primarily for overseas users), a library function for the storage and conveyance of large data files, a bulletin board function for viewing SA documents, and the hosting of SA training and budgetary data.

Security cooperation. Activities undertaken by the DoD to encourage and enable international partners to work with the U.S. to achieve strategic objectives. It includes all DoD interactions with foreign defense and security establishments, including all DoD-administered security assistance programs, that: build defense and security relationships that promote specific U.S. security interests, including all international armaments cooperation activities and security assistance activities; develop allied and friendly military capabilities for self-defense and multinational operations; and provide U.S. forces with peacetime and contingency access to host nations.

Security Cooperation Education and Training Working Group (SCETWG). An annual geographic combatant command conference conducted for the purpose of establishing the SA and SC training program for each country. Attendees are the SCO training manager and representatives from DSCA, the MILDEP, training agencies, and other key SC training management personnel. Actual IMET and FMS training programs are submitted, reviewed and determinations made as to training availability. The CTFP program is also a major focus of the SCETWG.

Security Cooperation Information Portal (SCIP). A DoD managed web-based system that provides access to FMS and security cooperation case-related data extracts as well as numerous other capabilities.

Security cooperation organization (SCO). Those DoD organizations permanently located in a foreign country and assigned responsibilities for carrying out of security cooperation management functions under section 515 of the Foreign Assistance Act and under Joint Publication 1-02, regardless of the actual name given to such DoD Component. The generic term SCO replaces the former term security assistance office (SAO).

Security Cooperation Officer Token Administrator. The individual designated, in writing, by the security cooperation office Chief to oversee and maintain the custody of each SCIP token within the security cooperation office.

Security force assistance (SFA). DoD activities that contribute to the unified action by the USG to support the development of the capacity and capability of foreign security forces (FSF) and their supporting institutions. (DODI 5000.68, Oct 2010)

Senior Defense Official (SDO) and Defense Attaché (DATT). Principal DoD official in a U.S. embassy, as designated by the Secretary of Defense. The SDO or DATT is the Chief of Mission's principal military advisor on defense and national security issues, the senior diplomatically accredited DoD military officer assigned to a diplomatic mission, and the single point of contact for all DoD matters involving the embassy or DoD elements assigned to or working from the embassy. The SDO or DATT is considered the dual-hatted chief of both the security cooperation organization (SCO) and defense attaché office (DAO) in the embassy. This position was established by DODD 5105.75, Department of Defense Operations at U.S. Embassies, December 21, 2007. The same document gives coordinating authority (see glossary definition) to the SDO or DATT for the purpose of ensuring that all DoD elements in a country are working in consonance with each other and under the guidance of the Chief of Mission. The SDO or DATT program replaces the now defunct U.S. Defense Representative (USDR) model.

Security Risk Categories (SRC). Categories designated by the security community that determine the transportation security requirements for movement of sensitive Arms, Ammunition, and Explosives (AA&E), based on capability, portability and volatility of the explosive.

Security Sector Assistance (SSA). The policies, programs, and activities the U.S. uses to: engage with foreign partners and help shape their policies and actions in the security sector help foreign partners build and sustain the capacity and effectiveness of legitimate institutions to provide security, safety, and justice for their people; and, enable foreign partners to contribute to efforts that address common security challenges.

Sensitive Materiel. Volatile and dangerous explosives which require special handling and transportation arrangements. The term sensitive also applies to highly desirable selected technologies which are not explosive, but which require special security procedures for transportation.

Sequestration. Refers to the issuance of a presidential order canceling budgetary spending in order to reduce the deficit by the required amount for that year.

Services. Includes any service, test, inspection, repair, training, publication, technical or other assistance, or defense information furnished as military assistance under the FAA, or furnished through FMS under the AECA.

Significant military equipment (SME). Defense articles for which special export controls are warranted because of the capacity of such articles for substantial military utility or capability. These items are identified on the United States

Munitions List in the *International Traffic in Arms Regulations* (ITAR) by an asterisk preceding the item category listing.

Shipper. The commercial or military manufacturer, vendor, supply depot, or repair facility that ships material in support of security cooperation programs on behalf of the DoD.

Single Vendor Integrity (SVI). The requirement that all replacement spares and support equipment for a specific weapon system are provided by the same manufacturer that provided the original equipment.

Site Survey. A team of U.S. personnel who assess the FMS customer's logistics capabilities and shortfalls to determine the optimum type and quantity of logistics support to be included in the Total Package Approach.

Sole source acquisition. A contract for the purchase of supplies or services that is entered into or proposed to be entered into by an agency after soliciting and negotiating with only one source.

Solicitation. The formal document used in negotiating acquisitions to communicate government requirements to prospective contractors and to solicit proposals.

Source selection. The process wherein the requirements, facts, recommendations, and government policy relevant to an award decision in a competitive procurement of a system/project are examined and the decision made.

Spares/spare parts. An individual part, subassembly, or assembly supplied for the maintenance or repair of systems or equipment.

Special Assignment Airlift Mission (SAAM). A dedicated U.S. military aircraft, chartered to deliver sensitive, classified or explosive defense articles to a specific customer location, when no commercial delivery capability exists.

Specialized English training (SET). Nine weeks of Specialized English Training at DLIELC provides intensive practice in the functional English language skills and technical terminology identified by Military Service as essential for success in technical training courses and professional military education. Focuses on terminology the international military student will need to know in follow on courses.

Staging cost. The cost incurred by the Department of Defense in consolidation of materiel before shipment to an FMS customer. Includes costs incident to storage and control of inventory, consolidation of incoming articles into a single shipment, and a break in CONUS transportation.

Standardization. The process by which DoD achieves the closest practicable cooperation among the military services and defense agencies for the most efficient use of research, development, and production resources.

Standardization agreement [NATO]. The record of an agreement among several or all of the members nations of NATO to adopt like or similar military equipment, ammunition, supplies and stores; and operational, logistics, and administrative procedures. National acceptance of a NATO allied publication issued by the Military Agency for Standardization may be recorded as a Standardization agreement.

Standardized training list (STL). List of all the Security Cooperation training courses that a country has requested from DoD and the status of the courses.

Supplemental appropriations. An act appropriating funds in addition to those provided for in the annual appropriations acts. Supplemental appropriations provide additional budget authority beyond the original estimates for programs or activities (including new programs authorized after the date of the original appropriations act) in cases where the need for funds is too urgent to be postponed until enactment of the next regular appropriations bill.

Supply Discrepancy Report (SDR). A process for international customers to file a complaint with the DoD for product loss, quality deficiencies, damage, and various other problems associated with the delivery of material under the FMS program.

Surface Deployment and Distribution Command (SDDC). A U.S. Army organization serving as the single DoD manager for military traffic, land transportation, and common-user ocean terminals. The SDDC provides transportation planning and support for the surface movement of passengers and cargo within the Defense Transportation System, including within CONUS.

Systems acquisition process. The sequence of acquisition activities starting from an agency's reconciliation of its mission needs with its capabilities, priorities, and resources, and extending through the introduction of a system into operational use or the otherwise successful achievement of program objectives.

System Support Buyout. An opportunity for international partners to make a final purchase of major items and associated spares and support equipment of a major system that is being terminated in the DoD inventory, prior to the contracts or production being discontinued.

T

Technical assistance field team (TAFT). A team of U.S. DoD personnel deployed on PCS status, normally for one year or longer, to a foreign country to provide technical assistance and training to foreign military personnel in the operation, maintenance, and employment of specific equipment, technology, weapons, supporting systems, or in other special skills related to military functions.

Technical assistance team (TAT). A team of U.S. DoD personnel deployed to a foreign country on TDY status (i.e., up to 179 days) to place into operation, operate, maintain, and repair equipment provided under the FMS or MAP programs.

Technical Coordination Group (TCG). A U.S. Air Force aviation support program that provides technical assistance for specific aircraft and engines. The TCG provides dedicated technical and engineering support to international partners who have purchased the aircraft or engines through the FMS program.

Technical data (TD). Recorded information of a scientific or technical nature, regardless of form or characteristic. Examples of technical data packages include research and engineering drawings and associated lists, specifications, standards, process sheets, manuals, technical reports, catalog item identifications, and related information and computer software documentation.

Technical data package (TDP). Normally includes technical design and manufacturing information sufficient to enable the construction or manufacture of a defense item component modification, or to enable the performance of certain maintenance or production processes. It may include blueprints, drawings, plans, or instructions that can be used or adapted for use in the design, production, manufacture, or maintenance of defense items or technology.

Technical manual. A publication containing instructions designed to meet the needs of personnel responsible for (or being trained in) the operation, maintenance, service, overhaul, installation, and inspection of specific items of equipment and materiel.

Test control officer (TCO). U.S. military or civilian personnel designated to administer, supervise, and control ECL testing and test materials. Must be a U.S. citizen, not a foreign national “local hire” civilian, or foreign military officer or NCO.

Theater Campaign Plans. Plans developed by geographic combatant commands that focus on the command’s steady-state activities, which include operations, security cooperation, and other activities designed to achieve theater strategic end states. It is incumbent upon geographic combatant commanders to ensure any supporting campaign plans address objectives in the Global Environmental Fund global planning effort and their respective theater campaign plans. Contingency plans for responding to crisis scenarios are treated as branch plans to the campaign plan.

Theater Security Cooperation Strategy. The document of a geographic combatant commander which plans, prioritizes, and proposes allocation of DoD resources across the full spectrum of military engagement within an area of operations. Normally, the TSCS is augmented by individual plans for each country, routinely termed country campaign plans. The TSCS responds to the OSD-level Security Cooperation Guidance and, when approved, serves as the roadmap for the execution of security cooperation activities by the combatant command staff, the component commands, and the assigned SCOs.

Third country/party transfers. The transfer of U.S. defense articles, services, and training to a country (a third country) from a country that originally acquired such items from the United States. As a condition of the original sale or transfer, the recipient government must obtain the consent of the President of the United States for any proposed third country/party transfer.

Total obligational authority (TOA). TOA is the total amount of funds available for programming in a given year, regardless of the year the funds are appropriated, obligated, or expended. TOA includes new obligational authority, unprogrammed, or reprogrammed obligational authority from prior years, reimbursements not used for replacements of inventory in kind, advanced funding for programs to be financed in the future, and unobligated balances transferred from other appropriations.

Total package approach (TPA). A means of ensuring that FMS customers are aware of and are given the opportunity to

plan for and obtain needed support items, training, and services from the U.S. government contractors, or from within the foreign country's resources which are required to introduce and operationally sustain major items of equipment or systems.

Training management system (TMS). A MS Access computer program developed by DISCS for use in the SCO to manage the SA training program. TMS uses STL and MASL data downloaded from the SA Network to produce IMET and FMS management reports, invitational travel orders, and other training management documents. Versions of TMS are also available for use by international military student offices at training activities and at the annual training program management review.

Training/training support. Formal or informal instruction of IMSs in the United States or overseas by officers or employees of the United States, contract technicians, contractors (including instruction at civilian institutions), or by correspondence courses, technical, educational or information publications and media of all kinds, training aids, orientations, training exercises, and military advice to foreign military units and forces. [Sec. 47(5), AECA]

Training program management review (TPMR). Obsolete term. See Security Cooperation Education and Training Working Group (SCETWG).

Tranche. A portion of an appropriation to be allocated to a foreign country. At times, Congress will direct that security assistance funds for a particular country or program be allocated in two or more portions (i.e., tranches), and will generally specify the timing of such allocations as well as the conditions which must be met before the sequential tranches may be allocated.

Transportation Plan. A document that details the transportation and security arrangements for moving classified or sensitive material, and identifies individuals responsible for providing security at various points during transportation.

Travel and living allowance (TLA). Those costs associated with transportation, excess baggage, and living allowances (per diem) of IMSs which are authorized for payment under the IMET Program.

Treaty. A formal agreement entered into between two or more countries. The treaty process includes negotiation, signing, ratification, exchange of ratifications, publishing and proclamation, and treaty execution. Treaties having only two signatory states are called bilateral, whereas those with more than two parties are multilateral.

Trust fund. A fund credited with receipts which are earmarked by law and held in trust, or in a fiduciary capacity, by the government for use in carrying out specific purposes and programs in accordance with an agreement.

Type of address code. One of several codes used in the MAPAD to identify a plain language address to which to ship a specific category of documents or material.

Type of assistance code. A code used to reflect the type of assistance (if any) and/or the planned source of supply for items/services identified on the Letter of Offer and Acceptance. Also known as a type of finance code.

U

Unaccepted case. An FMS letter of offer that was not accepted or funded within the prescribed time shown on the LOA.

Uniform Materiel Movement and Issue Priority System (UMMIPS). A DoD system of ranking materiel requirements and time standards for requisition processing and materiel movement through the use of a two-digit priority designator. It identifies the relative importance of competing demands for logistics resources.

Unified command (UCOM). A command with a broad continuing mission under a single commander and composed of significant assigned components of two or more U.S. services, and which is established and so designated by the president, through the secretary of defense with the advice and assistance of the Joint Chiefs of Staff, or, when so authorized by the Joint Chiefs of Staff, by a commander of an existing unified command established by the president. Now referred to as combatant commands.

U.S. Army Corps of Engineers (USACE). The U.S. Army's principal engineering design, construction, research and development organization. USACE is an implementing agency responsible for accepting Letters of Request and developing Letters of Offer and Acceptance.

United States Code (U.S.C.). A consolidation and codification of the general and permanent laws of the United States

arranged according to subject matter under fifty title headings. The U.S.C. sets out the current status of the laws, as amended. It presents the laws in a concise and usable form without requiring recourse to the many volumes of the Statutes at Large containing the individual amendments.

V

Veto. Disapproval by the president of a bill or joint resolution (other than one proposing an amendment to the Constitution). When Congress is in session, the president must veto a bill within ten days (excluding Sundays) of receiving it; otherwise, the bill becomes law without the president's signature. When the president vetoes a bill, it must be returned to the house of origin with a message stating the president's objections.

W

War reserve stocks for allies. A DoD program whereby the services procure or retain in their inventories those minimum stockpiles of materiel such as munitions, equipment, and combat essential consumables to ensure support for selected allied forces in time of war, until future in-country production and external resupply can meet the estimated combat consumption.

Worldwide Warehouse Redistribution Service (WWRS). A tri-service program that redistributes excess spare parts and support equipment acquired by foreign military sales customers.
