

EXECUTIVE Education Program

The Defense Security Cooperation University (DSCU) is now offering executive-level courses for executives and leaders from any U.S. Government agency, with Security Cooperation (SC) responsibilities who seek to build upon and refine their SC knowledge. The focus is on a broad understanding of SC and its strategic application to achieve defense and national security objectives.

DSCU, the Department of Defense's Center of Excellence for SC education and training, offers two course options for executives - both funded by the Defense Security Cooperation Agency. Note: Though these course are typically hosted at the DSCU National Capital Region campus in Crystal City, VA, due to the COVID-19 pandemic, all classes are hosted virtually.

SECURITY COOPERATION EXECUTIVE

(EXEC-901)

A 5-day course for O-6 and above, GS-15 and above, or U.S. military E-9 Senior Enlisted Advisors to General and Flag Officers, providing executive-level review of major US Government SC structures, policies, and programs. The small group format allows students to gain a deep understanding of how SC should be used as a tool for national power in support of the National Defense Strategy and how to engage in discussions and policymaking to bring SC issues into the broader problem set. Courses of interest include:

- SC and Great Power Competition
- SC in the Defense Industrial Base
- Ethics and SC
- History of SC

SENIOR EXECUTIVE SEMINAR

(EXEC-911)

This bespoke course is for 2-Star General and Flag Officer or equivalents and above and will provide a strategic overview of SC for leaders in key government positions. This private course is taught on demand and will be tailored specifically to the leader's time, requirements, regional focus, and interest. DSCU will plan detailed course content with the executive's staff to ensure it is of the highest value. The expected length is 2-days but this can be adjusted based on needs.

The instructors were fantastic – knowledgeable and vastly experienced. I especially liked the instruction when they linked academic Security Cooperation concepts to real-world current events.
